PROFESSIONAL SUMMARY

Software professional at Accenture working across Microsoft 365 administration, SharePoint and OneDrive support, and process automation. Experienced in identifying repetitive operational work, translating requirements into practical utilities, and building solutions with .NET and PowerShell. Comfortable with SQL, Python, web technologies and Git, with a strong interest in automation, platform engineering and AI-enabled solutions.

PROFESSIONAL EXPERIENCE

Accenture | Packaged App Development Associate | Oct 2024 – Present

- M365 administration: Support SharePoint and OneDrive site structure, permissions, storage, and daily operations.
- .NET reporting utility: Converts raw Excel exports into structured daily reports, reducing preparation time to 10–15 minutes.
- PowerShell automation: Automates elapsed-time calculations and SLA exclusion comments; adopted for wider team use.
- SharePoint automation: Developing storage-quota management automation, currently in production validation.
- Recognition: Received a SPOT Award from client leadership for automation and improvement work.

TECHNICAL SKILLS

Microsoft 365	SharePoint Administration, OneDrive, M365 Support
Development & Automation	.NET, PowerShell, Python, SQL, Git
Web / Data / Tools	HTML, CSS, JavaScript, MySQL, VS Code, MS Excel, MS PowerPoint

SELECTED PROJECTS

Daily Ticket Reporting Utility — Accenture (Internal): Built a .NET tool to clean Excel exports and produce a structured daily report.

SLA Exclusion Comment Utility — Accenture (Internal): Created a PowerShell tool to calculate elapsed time for SLA exclusion comments.

Placement Prediction using ML: Predicts placement outcomes from academic and personal factors; Team Leader.

Blood Donor Finder: Python/Tkinter app matching blood groups against Excel records; Developer.

Tic-Tac-Toe Game: Interactive HTML, CSS and JavaScript game with a dark-mode interface.

EDUCATION

Raghu Institute of Technology — B.Tech, CSE (Data Science), CGPA 8.41 (2020–2024)
Narayana Junior College — Intermediate (MPC), CGPA 9.54 (2018–2020)

INTERNSHIPS

HMI Engineering Services — Python for Data Science	Jun–Jul 2023
Slash Mark — Machine Learning	Feb–May 2024

CERTIFICATIONS

- Microsoft — AZ-204: Developing Solutions for Microsoft Azure
- Coding Ninjas — Coding Competition: Certificate of Achievement (All India Rank: 11744)
- GitHub — GitHub Foundations
- NPTEL — Programming, Data Structures and Algorithms using Python
